LIFTING BAGS

AUTHORIZED DEALER
FOLLOW USER MANUAL

WEAR PERSONAL PROTECTIVE EQUIPMENT
Low-pressure lifting bags are used for lifting very large objects. They have special TOP GRIP pads bonded to the top and bottom of the bag. Top Grip pad offers heavy duty protection from slipping, puncture, abrasion and premature wear.

Used for uprighting trucks, rail cars, and other types of vehicles or structures.

### Use on all grounds (rock, glass, metal)
Lifting Bag 4 Car is an inflatable bag that comes in handy at replacing flat tyres of passenger vehicles, SUVs, as well as light commercial vehicles. LB4C is a light, compact and robust bag, which is easy to place under a vehicle and is inflated by means of any compressed air source. If compared to a mechanical car lifter, this bag especially excels if the space is limited. The non-inflated bag is less than 5 cm high; without causing any damage it can be easily placed under a vehicle with a flat tyre, as well as under a vehicle with a lowered chassis, or built-in spoilers.

Perfect for tyre change
Simple operation
Light, compact and robust
Reinforced top and bottom

NEW

Top and bottom reinforced to provide protection from sharp objects

Medium-pressure lifting bags provide high lifts. They have a soft footprint which makes them ideal for lifting softer structures since the lifting force is spread over a wider area.

Perfect performance on soft grounds

Suitable for high lifts

Made from extra durable materials

Extra fast inflation and deflation

High-pressure lifting bags are used for lifting the heaviest loads. High-pressure lifting bags exert maximum force in a concentrated area, making them ideal when lifting rigid structures in tight places. Their unique structure also allows use in load shifting, heavy truck or aircraft recovery and different moving situations.

- INFLATION DISTRIBUTOR 10 BAR 1 m, YELLOW 589334
- HOSE WITH SHUT-OFF VALVE 10 BAR 0.5 m 589333
Inflation accessories have been designed for precision control, high reliability and long life. They are used with all of our lifting bags – from the source of air to controllers.
1.8. THE USAGE OF LIFTING BAGS

Conventional and flat lifting bags are intended for lifting, lowering, positioning, spreading, pushing and moving of loads weighing up to 88,000 kg. They are mainly used in rescue operations and industrial lifting.

Inflation with compressed air

Inflation with water

SPREADING

FIXING

PUSHING

IMPORTANT NOTE

Non-compliance with the instructions can result in various injuries. Carefully read the instructions for operation before using the lifting bag.

What is unique about the Savatech Flat bags is that they start out flat and remain flat even when fully inflated (flat working surface). With the Savatech lifting bags at full inflation height, only the sides curl. The bag doesn’t crown as conventional high-pressure lifting bags do.

1. GENERAL CONDITIONS

1.1. These warranty conditions apply as of 30 June 2014 for Environmental Protection and Rescue Programme products, manufactured by Savatech (Products). If any provision of this warranty conditions would be contrary to any mandatory legal provisions in any particular jurisdiction, such provision shall apply to a maximum extent as provided for by such mandatory legal provisions.

1.2. Products which may be sold by Savatech Environmental Protection and Rescue Programme but are not manufactured by it are not covered by this warranty and are sold exclusively with warranties, if any, by their original manufacturer.

2. MANAGEMENT OF THE PRODUCTS

2.1. In order to claim a remedy pursuant to this warranty, purchaser must conform to instructions for management of the Products which are available on:

http://www.savatech.com/Manuals/index.htm
www.savatech.eu/environmental-protection-and-rescue/manuals

3. WARRANTY

3.1. Savatech warrants to the purchaser that for the period of twelve (12) months as of delivery of the Products, such Products shall be free from defects in material and workmanship, subject to normal and management of the Products, including, among others, proper storage. For high pressure lifting bags, the warranty period amounts to thirty-six (36) months.

3.2. This warranty shall be in lieu of any other warranties, express or implied, including, but not limited to, any warranty of merchantability or fitness for a particular purpose.

4. EXCLUSION OF WARRANTY

4.1. Warranty shall be excluded in cases where the Products have not been used for the ordinary purpose or have been subject to abnormal conditions such as, but not limited to misuse, mishandling (such as, but not limited to, cuts, tears, vandalism, fire, wilful destruction, improper installation and/or improper maintenance, misapplication), use of unauthorized components or attachments or if adjustments or repairs have been performed by anyone other than Savatech or its authorized agents.

4.2. Warranty shall also be excluded and Savatech shall not be held liable in case of force majeure circumstances, such as, but not limited to:
- war or threat of war, sabotage, insurrection, riots or requisition;
- all laws, restrictions, regulations, by-laws, prohibitions or any other measures by the governmental, parliamentary or local bodies;
- import and export regulations or embargo;
- strikes, lock-outs or other industrial measures or trade disputes (if including Manufacturer’s employees or third party);
- difficulties with supply of raw materials, work force, fuel, parts or machinery;
- power blackout, break of machinery.

4.3. Savatech shall not be held liable for any deficiencies in Products manufactured according to drawings, designs, project drafts and/or specifications provided by the purchaser.

4.4. Ordinary wear and tear is not covered by this warranty.

5. MAKING A WARRANTY CLAIM

5.1. The Purchaser is obliged to take delivery of the Products and perform an ordinary inspection of the Product upon delivery.

5.2. Any claim by the purchaser with reference to the Products shall be deemed waived unless submitted in writing to Savatech within the earlier of (i) eight days as of the discovery of the defect, or (ii) twelve months as of the date of delivery of the Products or thirty-six (36) months as of delivery of high pressure lifting bags. Discovery of the defect is deemed to have occurred when a defect could have reasonably been detected by the purchaser.

5.3. Claim must at least contain the following data:
- part number,
- serial number,
- description of defect,
- and must be substantiated by adequate evidence, such as pictures, etc. Upon request, Savatech must be allowed to inspect the Product.

5.4. To obtain performance under this warranty, any products suspected of having a manufacturing defect in materials or workmanship shall be returned freight prepaid for inspection to SAVATECH d.o.o., Environmental Protection and Rescue Programme, Škofjeloska c. 6, 4000 Kranj, Slovenia.

6. REMEDIES

6.1. Savatech shall decide on a claim within forty-five days after receiving a complete documentation and Product pursuant to art 5.

6.2. Providing Savatech acknowledges the claim as justified, it shall, at its discretion, either:
- repair the Product,
- replace those components of the Product which are defective,
- replace the Product, if repair is not possible or reasonable,
- reimburse the consideration for the Product or its components which are defective.

6.3. Whenever Savatech repairs or replaces the Product at its expense or reimburses the purchase price, it shall reimburse the distributor or the purchaser (depending on each case), with a credit note, the same freight amount the distributor or the purchaser had when returning the Product to the Manufacturer.

6.4. Remedies pursuant to this article 6 shall constitute the sole and exclusive remedy in the event of a breach of warranty. For the avoidance of doubt, Savatech shall not be liable for any incidental, consequential and/or non-pecuniary damages or damages having a comparable effect.

7. CLOSING PROVISIONS

7.1. No statement or action by Savatech, whether express or implied, other than set forth herein, shall constitute a warranty.
We are a division of Savatech d.o.o. within the Trelleborg Group. We manufacture and sell rubber products for environmental protection and rescue operations and industrial use. Our growing division was established more than thirty years ago and is constantly striving to meet our customer’s current and future needs and expectations.

KNOWLEDGE AND EXPERIENCE

Thirty years of experience and knowledge, investment in new technology, team-work and working closely with our business partners, have enabled us to develop new and exciting products and to continuously improve our existing product range.

PROFESSIONAL SERVICE

A professional but caring approach, flexibility and quick delivery times combined to provide the ideal service in support of our quality product range.

QUALITY PRODUCTS

When assessing quality of our products we carefully consider a number of criteria including environmental suitability, ease of use, design, safety, reliability, and packaging. Our production facilities are certified to the ISO 9001 and ISO 14001 standards.

A PARTNER TO RELY ON

We understand the value of long-term partnership. Our aim is to develop trusting relationships, which foster success and bring benefits to both our partners and ourselves.
